

Technology Transfer in the Biotechnologies
Industrial event / trade fair Organization in
Microbes for Life and Microencapsulation sectors

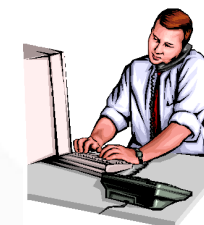

A company profile based on a strong networking capacity

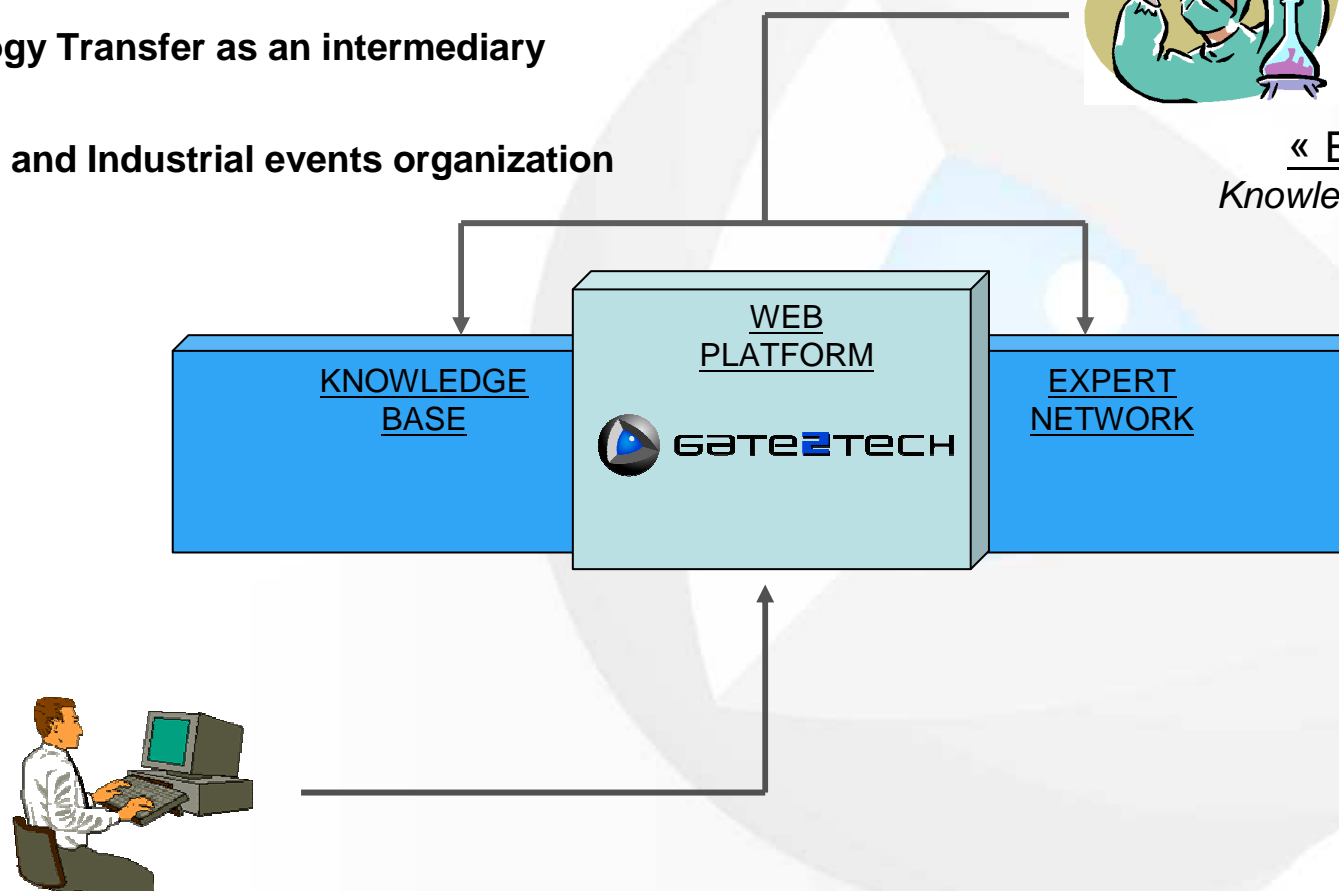

1- Technological Consulting (microencapsulation => formulation needs)

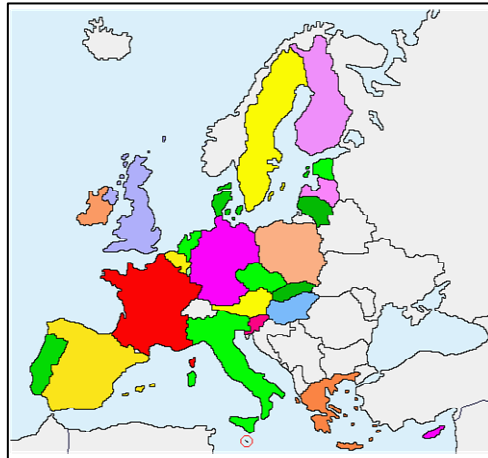

2- Technology Transfer as an intermediary

3- Scientific and Industrial events organization

« Experts »
Knowledge, expertise

Europe

Strong expertise in **organizing trade fair & technical events mobilizing an international network of experts** in the fields of **Microbes for Health and Microencapsulation**.

1st edition...

Industrial application of Probiotics :

- Scientific knowledge, industrial case study
- EC / US regulation, safety issue
- Technical issues (shelf-life, acidic R, right delivery...)

...4th edition

22>23 JUNE
PARIS

From the 5th edition in 2011, PROBIOTECH will be organized abroad to cover

new geographic area and increase our Clients' portfolio

IPEM
TECH 2009

The Microencapsulation Trade Fair - sept. 2009

MICROBIOTA
THE HUMAN MICROBIOME EVENT

mid December in PARIS since 2009

The industrial event on microflora :

- Scientific updates especially on microflora function,
- Industrial applications: cosmetic, personal care and pharma
- Safety,
- Identification methods (culture independant methods...)

EVENT
4
SCIENCE

Visit us at www.event4science.com

-How such meeting could help us?

=> by increasing our network and be aware of the potential of new products and/or technology for future industrial application and then to help reducing the time-to market of these innovations

=> by finding business opportunities as agent to develop new products / ingredients from marine origin commercial sector on a geographic point of view (international development)

=> example: micro-algae new application, probiotics for aquaculture farming, new development in anti-fouling with the biotechnologies...

-what could we bring with our internal expertise and network?

=> key contact from our network in industry and academic lab to increase collaboration and business opportunities

=> technology transfer opportunities

=> international development
