

# Marine bioprospecting / biodiscovery

- A targeted and systematic search for parts, bioactive molecules or genes in marine organisms.
- With the purpose to develop products or processes for commercial development or benefit for society.

→ **The hunt for valuable principles from the marine environment.**

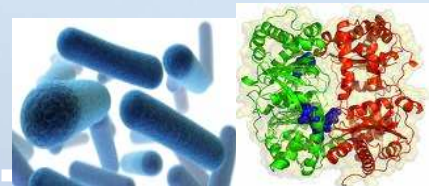

**The Norwegian government will create the basis for new and sustainable creation of values.**

**The ambition is to unleash the full potential found within marine bioprospecting.**

Setting up **BLUE** biotech to enter the **WHITE** biotech sector, in order to offer **GREEN** solutions

MARBANK

**Norwegian enzymes developed for biomass processing and new industrial processes.**

**7,5 m€ in this call**

**GOAL:**

**A source for new and sustainable value.**

**Business development**

**Research & development**

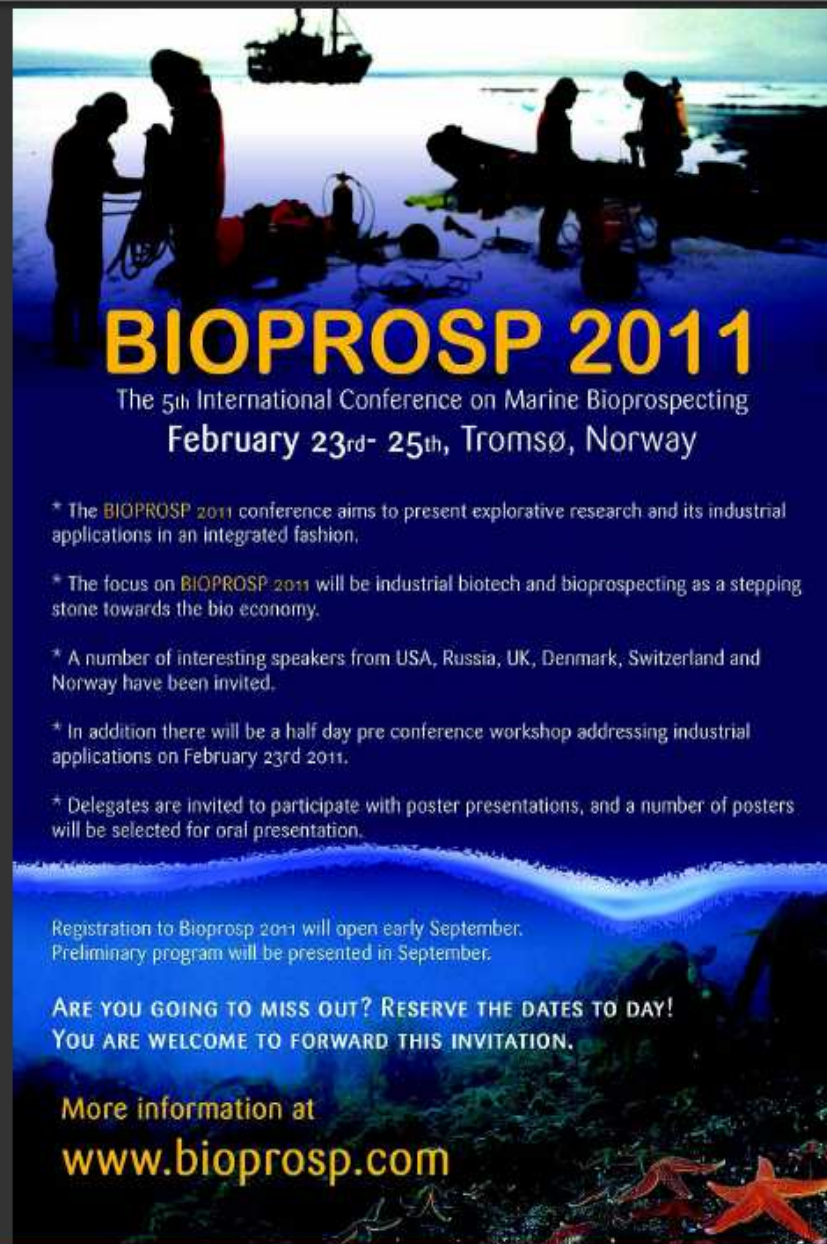

**Bioprospecting in marine resources**

**National and international cooperations**

**Tilrettelegge for bruk av marint biologisk materiale til forskningsformål, dokumentasjon av biologisk mangfold, og kommersiell utnyttelse**

**Utløse verdiskapingspotensialet gjennom koordinering og synergi mellom forskningsmiljøer og industri**

**Bygge opp forskningskompetanse og hensiktsmessig nasjonal infrastruktur for å sikre tilstrekkelig kapasitet og metodekompetanse**

# BIOPROSP 2011

The 5<sup>th</sup> International Conference on Marine Bioprospecting  
February 23<sup>rd</sup>- 25<sup>th</sup>, Tromsø, Norway

- \* The BIOPROSP 2011 conference aims to present explorative research and its industrial applications in an integrated fashion.
- \* The focus on BIOPROSP 2011 will be industrial biotech and bioprospecting as a stepping stone towards the bio economy.
- \* A number of interesting speakers from USA, Russia, UK, Denmark, Switzerland and Norway have been invited.
- \* In addition there will be a half day pre conference workshop addressing industrial applications on February 23<sup>rd</sup> 2011.
- \* Delegates are invited to participate with poster presentations, and a number of posters will be selected for oral presentation.

Registration to Bioprosop 2011 will open early September.  
Preliminary program will be presented in September.

**ARE YOU GOING TO MISS OUT? RESERVE THE DATES TO DAY!  
YOU ARE WELCOME TO FORWARD THIS INVITATION.**
